Dan,

Thanks for sending these. Attached are modified labels for both 12455-5 and 12455-14.

I have one question regarding 12455-5. You added a statement "Do not use in sewers." Our other diphacinone block products indicate that it can be used in sewers. Could we delete this statement and change the sentence as done for 12455-14 which states "This product is especially suited for wet or damp areas, such as sewers."?

Best regards,

John Lublinkhof
